directory of custom operators in alberta 1987

AGDEX 825-17

Alberta
AGRICULTURE

Farm Business Management Branch

PREFACE

In the past, the Farm Business Management Branch has had many inquiries regarding "Who does custom work in my area?" In response to that need, the Farm Business Management Branch in 1986 again requested custom operators in Alberta to submit their name and services for this year's publication. This is the fourth year this publication has been printed.

This directory will benefit both the farmer and custom operator. The farmer who wants custom work done will know who some of the custom operators are in his area. The custom operator in turn will benefit by publicizing his services.

This directory provides information on the custom operator's name, town, phone number and type of custom service offered. Further information related to custom rates may be found in the publications Farm Machinery Costs As A Guide To Custom Rates - 1987 Agdex 825-4 and Custom Rates Survey Summary 1987 Agdex 825-9.

We draw your attention to the back cover of this publication. Custom operators interested in being included in the 1988 directory should complete and return the attached card.

This publication was prepared by Lori Riabko and Garth Nickorick under the supervision of Gerd Andres of the Farm Business Management Branch, Alberta Agriculture. Special thanks to Keith Toogood, System Development Branch, Alberta Agriculture for computerizing the printouts and Maureen Whitlock, Statistics Branch for her assistance in updating custom rates information.

THE DEPARTMENT GRATEFULLY ACKNOWLEDGES THE CUSTOM OPERATORS WHO LET THEIR NAMES STAND IN THIS PUBLICATION.

J. Wilson Loree, P.Ag., Head
Farm Business Management Branch
Box 2000
Olds, Alberta T0M 1P0

March, 1987

INTRODUCTION

The 1987 Custom Operators Directory was published to provide Alberta farmers with information on who does custom work in their area and also to publicize the services of custom operators.

Information for this directory was collected through brochures individually distributed and also included in the publications Farm Machinery Costs As A Guide To Custom Rates 1987 and Custom Rates Survey Summary - 1987. Additional information was collected by telephone follow-up where needed.

The information received from the brochure was classified into eight major custom categories. Other minor custom services are also included.

For the 1988 Directory, please note the back cover of this publication. Custom operators who wish to be included in this Directory (1988) must complete and return the card to the Farm Business Management Branch in Olds before December 31, 1987.

Every effort has been made to ensure that the information in the publication is correct at the time of printing. If errors are present, please inform the branch.

HOW TO USE THE DIRECTORY

Under each category are operator service codes (beside the phone number) which further describe the custom service offered. These codes are described at the bottom of every page.

In all sections custom operators can be located first by looking up the town name (listed alphabetically), and then by the operator's surname (also alphabetical). Printed after the telephone number are the operator service codes.

If you have any questions regarding this directory, please contact the Farm Business Management Branch in Olds at (403) 556-4247 or Box 2000, Olds, Alberta, T0M 1P0.

DISCLAIMER CLAUSE

The custom operators listed in this publication have submitted their names and services voluntarily. Their listing does not and should not be construed as recommendation of their services by Alberta Agriculture. While every effort has been made to ensure that the information in the publication is correct at the time of its publication, neither the Crown, its agents or employees, nor the authors of this publication, assume any responsibility or liability whatsoever for any financial loss or damage suffered as a result of the publication.

² Refer to Machinery Cost Worksheet and divide by annual hours of use.
³ Refer to Machinery Cost Worksheet.

POINTS TO CONSIDER IN A CUSTOM HIRING AGREEMENT

Custom hiring is a business arrangement. As in all business arrangements, the agreement should outline the rights and duties of all the parties involved. A written agreement is advisable to avoid misunderstandings in case of a dispute. The following points should be considered in a custom hiring agreement.

Operations: The agreement should provide a description of the exact operations to be performed by the parties and the machines, materials and labor to be supplied by each party.

Timeliness: Significant losses can occur if an operation is not started or completed on time. To facilitate planning, a custom hiring agreement should include a schedule of operations for both parties. Such a schedule would be subject to weather conditions and crop maturity. Reasonable notice should be provided by each party when circumstances alter the schedule for operations.

Rate Schedule: The custom operator, for each operation to be performed, should stipulate his rate on the basis of acreage, time (week, day, hour) or total operation performed.

Payment: The agreement should stipulate the terms of payment for custom operations. The custom operator should bill the client on completion of each custom operation indicating the actual units (acres, hours, etc.) completed, the rate charged per unit, the total charge and the due date for payments.

Down-Time: The parties should consider a clause in the agreement, regarding responsibility for down-time as a result of machine breakdown.

Termination: The agreement should include a clause for a minimum period of notice for termination. A penalty should be stated for unjustified termination of the agreement.

Liability: The parties should consider a clause stipulating the responsibility for liability claims as a result of damage to personal property.

Management: The custom agreement should secure provisions that the custom operator will employ acceptable management practices in his operations.

For additional information and sample agreements for the above, refer to the publication "Custom Farming Agreement", Alberta Agriculture, Agdex 817-10.

DIRECTORY OF FARM CUSTOM OPERATORS

ARE YOU IN IT?

1988 DIRECTORY

Alberta Agriculture will be publishing a 1988 **Directory of Custom Operators in Alberta**. The directory will benefit both custom operators and farmers. Farmers who want custom work done will know who the custom operator(s) are in their area, and custom operators will have a means to publicize their services. The only information in the directory will be the custom operator's name, town, phone number and type of service offered.

Custom operators interested in being included in the 1988 directory should complete and return the attached form by December 31, 1987. Operators who were listed in the 1987 directory must also submit the attached form for the 1988 directory.

PUBLICATIONS

Besides the directory, Alberta Agriculture also publishes the **Custom Rates Survey Summary** and **Farm Machinery Costs As A Guide to Custom Rates**. The summary contains actual custom charges surveyed in the previous year. The guide provides information about the cost of machinery ownership for the current year. Both may be useful in determining custom charges for the current year. The two publications contain worksheets on how to calculate machinery costs and machinery custom charges.

The above annual publications are available at your local Alberta Agriculture district office, or write to the Farm Business Management Branch, Box 2000, Olds, Alberta, T0M 1P0; or phone 556-4247.
